

FIG.1

FIG.2

A schematic diagram of a multi-layered system. At the top, a box labeled 22 is connected via bidirectional arrows to two stacked boxes labeled 20. Below these, a box labeled 14 is connected to a box labeled 16. A box labeled 32 is positioned between the 20 boxes and the 14 box. A box labeled 18 is connected to the 16 box. A box labeled 34 is connected to the 22 box. A box labeled 35 is connected to the 16 box. A box labeled 36 is connected to the 22 box. A box labeled 37 is connected to the 16 box. A box labeled 38' is connected to the 14 box. A box labeled 40' is connected to the 16 box. A box labeled 42' is connected to the 16 box. A box labeled 24 is connected to the 16 box. A box labeled 26 is connected to the 16 box. A box labeled 52 is connected to the 16 box. A box labeled 54 is connected to the 16 box. A box labeled 56 is connected to the 16 box. A box labeled 58 is connected to the 16 box. A box labeled 60 is connected to the 16 box. A box labeled 62 is connected to the 16 box. A box labeled 95 is connected to the 16 box.
